Signature: _____

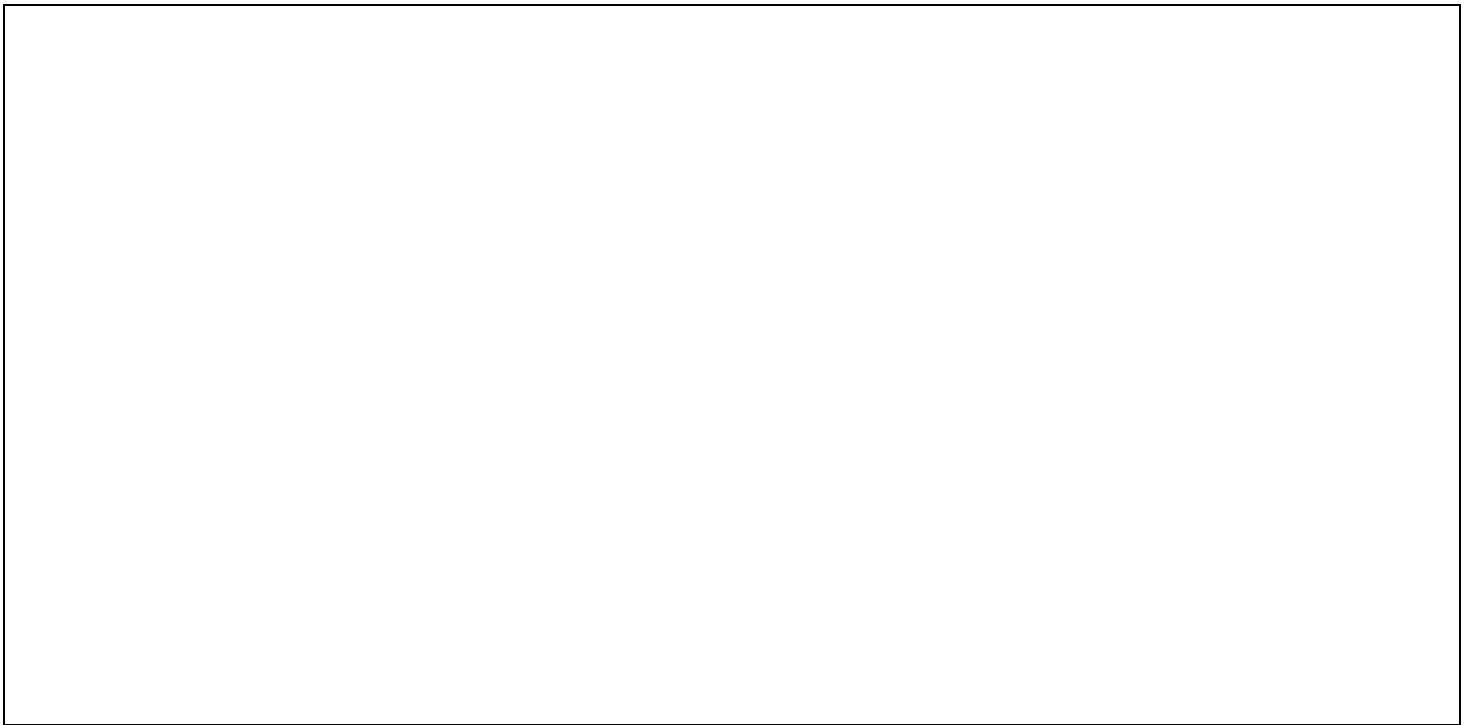

Approval to begin work: YES NO

Architectural Review by _____ Date _____

Guidelines for homeowners:

1. Complete this application before entering into a contract or beginning any work.
2. Provide paver samples of proposed products if different than the pre-approved examples listed above.
3. Installation of the pavers must be random. No symbols, letters, or numbers may appear in the finished design. Borders, if used, must be the same size and color as the field pavers. If a sealer is applied, it must be a matte finish, not glossy.
4. Paver installations must be maintained in good condition. Settling or heaving after installation must be addressed to maintain appearance and safety.
