

## Gary Rautio

I have served on the EE Board of Directors for the past 6 months however only as a replacement member. Therefore, I have had some experience witnessing the workings of the board and I am now volunteering to serve on a full-time basis.

If elected, I believe my past work experience will assist the HOA Board and this community to continue moving forward in a positive fashion.

If elected, I believe my past work experience will assist the HOA Board and this community to continue moving forward in a positive fashion. Upon completing college, with a degree in business management, I held a variety of positions in operations management with a large distribution company and I held various contract management positions with an international avionics company. My contract responsibilities included interface and support of the company program engineers plus providing direct interface with customer's procurement departments. In addition, my responsibilities included keeping the customers advised of any changes to program schedules and/or design requirements plus negotiating financial recovery from customers.

I believe my experience would be helpful in supporting the Board and our community by creating a positive atmosphere to maintain and improve this community's status as one of the finest in Arizona.
